

# Certificate – Y-DNA

This Certificate confirms that you have had your DNA analyzed by Family Tree DNA. The outcome from each of the twenty-five Loci examined is reported in the table below.

For your benefit we have listed the Locus designation for all Twenty-five Loci utilized by the geneticists supporting our company. If your alleles for the twenty-five Loci match another person exactly, then you share the same Haplotype.

Family Tree DNA is a Genealogical tool designed to aid individuals wanting to “connect” to other relatives lost in time and where the paper trail no longer exists.
